Memorandum

To Dr. Roswell Date July 2, 1975
From Mort Mendel
Subject PURCHASE ORDER NO. 6904 -- 2 AIR MOTORS WITH ACCESSORIES

COPIES TO:
Chuck Nash
John Mann

The attached purchase order represents an item from our 1975 capital budget for Water Maintenance & Service (item no. 75-M4) (d) for two McLaughlin C. P. Air Motors.

These air motors are used in the installation of 3/4 to 1 inch long water service lines....they are literally air-driven motors which drive boring tools (bars), which hook together in 4 foot lengths & which are used to bore under right-or-way surfaces for long water services.

The motors actually run off an air compressor, but are the drivers for the boring tools.

We presently have 2 of these motors in service which were purchased around vintage 1964. One is completely worn out and is not repairable....we are trying to get the other one repaired, but parts are a problem...hence, the inclusion of this item in our 1975 capital budget plan.

Also, we are specifying the McLaughlin product, rather than multi-vendor "approach", because the boring rods and tips which we use are "married" to the air motor drivers, i.e. the hexagonal dimensions of the drivers are married to the dimensions of the bars.

If we were to go to another vendor, we would have to equip our department with all new boring rods and tips, since the dimensions are not standardized between vendors.

We would appreciate your forwarding this to City Council for approval at your earliest convenience.

If there are further questions, please let me know.

M Mendel
